

No Diet Diet: Reduce your weight without restricting the food you eat

Originally published in 1996 this book was one of the first to suggest that the secret to weight loss is in the mind. To be slim you have to think slim. The No Diet-Diet Weight Loss Program, will show you techniques and strategies that you need to think slim and lose weight and will show you how to: 1. Lose weight without counting calories. 2. Lose weight without restricting the foods you eat. 3. Eliminate food cravings and compulsive eating habits. 4. Know the right time to start eating, and when to stop 5. Discover a no effort, no diet way to lose weight. Typically, what makes the traditional weight-loss process so difficult is the fact that if we deny ourselves of food, that just makes us want it even more. Which means that cravings build and build until a bout of comfort or binge eating destroys our dieting plans. This is why so many people have problems sticking to a traditional weight loss diet. So if you really want to lose weight, you just need to adjust your way of thinking. That is specifically what the No Diet-Diet Weight Loss program will help you to do, and help you to lose weight little by little every day
