

# Introduction to Agricultural Biochemistry

The development of agricultural chemistry. Chemistry of living matter. Physical state of matter. Carbohydrates. The lipids. Proteins. Enzymes. Biological oxidation. Seed germination. The soil and its relation to plant growth. Fertilizers. Plant metabolism. Farm chemistry. Foods and feeding stuffs. Digestion of foods. The chemistry of blood, lymph, and body tissues. The vitamins. Energy metabolism. Carbohydrate metabolism. Lipid metabolism. Protein metabolism. Protein nutrition. Mineral metabolism. Mineral nutrition.
