

Contribution a l'Etude de la Flore du Katanga (Classic Reprint) (French Edition)

Excerpt from Contribution a l'Etude de la Flore du Katanga La redaction des chapitres qui forment ce livre, et constituent des paragraphes d'une monographie botanique des territoires regis par le Comite Special du Katanga nous a ete suggeree par les demandes que nous ont frequemment adressees des fonctionnaires de ce Comite et des voyageurs, desireux de cooperer au developpement des donnees scientifiques relatives a cette belle partie de notre colonie. Les renseignements accumules sur la botanique katangienne, en considerant cette science dans un sens large, sont assez nombreux deja, mais malheureusement tres disperses dans des publications variees, parfois difficiles a consulter en Europe, impossible a compiler en Afrique. Meme les chefs de services speciaux, dont les travaux devraient, en partie, se baser sur les elements de la Flore, ne pourraient, sans de longues recherches, se rendre compte de ce que nous savons actuellement de cette Flore, quelles en sont les plantes utiles et utilisables. La connaissance des vegetaux indigenes dun pays a pour son habitant, en particulier pour lagriculteur et le forestier, une importance que personne ne contestera. On a fait ressortir avec grande justesse que la couverture vegetale dun sol peut donner parfois, mieux que lanalyse chimique, la valeur culturale de ce sol.
