

Introvert: Learn to Crush Fear, Escape your Comfort Zone and Thrive as an Introvert (Confidence, Success, Motivation, Self Esteem)

Use this book as your guide to shattering your comfort zone by leveraging the strengths of your introverted qualities. Introversion = bad Extroversion = good... right? Wrong. This book does not promote the idea that you need to become an extrovert in order to be successful. There are pros and cons to introversion and extroversion alike. In this book, you will learn to crush the limiting fears that hold back many introverts and ultimately hinder their success. Being an introvert does not mean that you are at a disadvantage against extroverts when it comes to personal success. You just need the right mindset towards your personality style and the courage to do the things that truly matter to you. If you want to thrive by staying true to who you are, you need this book. Do you often feel that you need to act as somebody else to be liked and to be successful? Most introverts consider their personality trait as a disadvantage. The people who are glorified in the media regularly are often portrayed as extroverts. This is the reason why we generally associate extroversion with success. This book will guide you on how to discover your strengths as an introvert. It will also guide you on how you can succeed in the social world. With the strategies offered in the chapters that follow, you can thrive socially just by being yourself. Here is a preview of what you'll learn... The Introvert Stigma The Strengths of Introverts Discovering Your Circle of Confidence Awareness of Your Mental State Dealing With Your Social Fears The Introverts Success Plan And Much, Much More! The goal of this book is not to remove your introversion and instantly turn you into an outgoing individual. Being an introvert has many advantages and you should not want to let go of this quality. If you lack self-confidence, then THAT is the quality that we need to change. You can be confident and be an introvert at the same

time. You can thrive while still being an introvert. Take action & see results now!
