

# Ichthyoplankton and Station Data for Surface (Manta) and Oblique (Bongo) Plankton Tows for California Cooperative Oceanic Fisheries Investigations Sur

Ichthyoplankton and Station Data for Surface (Manta) and Oblique (Bongo) Plankton Tows for California Cooperative Oceanic Fisheries Investigations Survey Cruises in 2002

Southwest Fisheries Science Center: NPAA Fisheries Service, et al., S. R. Carter

In the 1970s the National Oceanic and Atmospheric Administration (NOAA) was made to manage our oceanic and atmospheric resources. The Southwest Fisheries Science Center is the research arm of NOAA's Southwest Region. Scientists study all areas from the Pacific Ocean to the Antarctic to make sure that the ocean and animals in it stay healthy and safe.
