

## Little Women (Illustrated Junior Library)

Timeless in its evocation of idealized family life and robustly enduring, *Little Women* is recognized as one of the best-loved classic childrens stories of all time. Originally written as a girls story, its appeal transcends the boundaries of time and age, making it as popular with adults as it is with young readers. For this is a beguiling story of happiness and hope, of the joys of companionship, domestic harmony and infinite mother love, all seen through the life of the March family. But which of the four March sisters to love best? For every reader must have their favorite. Independent, tomboyish Jo; delicate, loving Beth; pretty, kind Meg, or precocious and beautiful Amy, the baby of the family? *Little Women* was an instant success when first published in 1868, and followed only a year later by the sequel, *Little Wives*.
