

## Protect Our Planet: Pack A (Young Explorer: Protect Our Planet)

This series explores the various ways our planet is being polluted and what the effects of this pollution have been and will be in the future. Each book also looks at how people are trying to stop the pollution and find ways to reverse the effects, and highlights ways in which we can all make a difference to the environment. The books also look at how pollution is affecting different eco-systems and elements, and provide an excellent match to the Improving the Environment Scheme of Work for Geography.
