

# The Lady Who Lives in a Tree House

This is a story about a lady who lives in a special home inside a tree. She lives with some special friends in the woods and nature is abounding with activity and life. Trees are very important to the lady who lives in the tree house and she wants to save the trees from disappearing from the earth altogether. She wants to see that people the trees people remove for various things get replaced with new trees in a project called sustainable growth for trees. Trees are vital to earth and the inhabitants of the earth. Come and read about the lady who lives in a tree house and see why she loves trees so much. Laurel Marie Sobol is an inspirational author and illustrator of fine art. She believes that a healthy world equates to healthy inhabitants. Thus her art and literary works are geared toward the appreciation of earth, sustainability, green, recycling, reducing waste, and using natural forms of energy that dont contaminate the earth for thousands of years like nuclear energy. Laurel is an advocate for wildlife and nature for it is these innocent creations that cant speak for themselves to better their circumstances on this earth. The animals and plants need protection just as humans do for healthy living and longevity. The ideal world involves human and nature interaction and appreciation. If you take one away from the other neither will be fully functional and adjusted. Humans without a healthy natural environment cant be at their best. Nature without human assistance cant be at its best either. Join a cooperative effort and appreciation of humans, wildlife and nature and voila the ingredients are there for a healthy relationship for everyone and everything in the world.-Laurel Marie Sobol
