

The Wonderful Adventures of Nils: Illustrated

The Wonderful Adventures of Nils is a work of fiction by the Swedish author Selma Lagerlof. Originally it was published in two books, The Wonderful Adventures of Nils in 1906 and Further Adventures of Nils in 1907. These two are usually combined into a single book called The Wonderful Adventures of Nils, although that name could also describe the first book only. The background for publication was a commission from the National Teachers Association in 1902 to write a geography reader for the public schools. She devoted three years to Nature study and to familiarizing herself with animal and bird life. She has sought out hitherto unpublished folklore and legends of the different provinces. These she has ingeniously woven into her story.
